

1. Broken Mirror

I wouldn't believe everything you said
Now what do I see
A broken mirror looking at me
Am I now the one who's incomplete

Broken mirror
You did not lie
You told me what's wrong
And you told me why
Your pieces are true
Sharp and blind
Nobody looks back
From your unseen side

You wouldn't believe
Everything I said I did not mean
Broken mirror under my feet
Are you now the one reflected in me

Broken mirror
You did not lie
You told me what's wrong
And you told me why
Your pieces are true
Sharp and blind
Nobody looks back
From your unseen side

Well, every night, every day
I came to you to see what you'd say
And now look what I've done
It's the hour and the lack of oxygen

I wouldn't believe everything you said
Now what do I see
A broken mirror looking at me
Am I now the one who's incomplete
Alone in the night

2. Waste Your Time

If you ever get downtown
Why don't you see if I'm around
Maybe I'll waste your time
Like I waste your time
And if you ever get the sense

You're gonna see me again
I'm gonna waste your time
Like I waste your time
Yeah, yeah like I waste your time

Do you still complain
About everything
You make it sound like a compliment
Do you still have spells
Catastrophic bills
You make it look like you intended it

And if you ever get downtown
Why don't you see if I'm around
Maybe I'll waste your time
Like I waste your time
And if you ever get the sense
You're gonna see me again
I'm gonna waste your time
Like I waste your time
Yeah, yeah like I waste your time

Do you still forget
Exaggerate the rest
You make it all into an incident
Do you still deny
Shut one eye
Then aim right between the promises
Yeah, yeah waste your time

If you ever get downtown
Why don't you see if I'm around
Maybe I'll waste your time
Like I waste your time
And if you ever get the sense
You're gonna see me again
I'm gonna waste your time
Like I waste your time
Yeah, yeah like I waste your time

3. Love Grows (Where My Rosemary Goes) (Tony Macaulay / Barry Mason)

She ain't got no money
Her clothes are kinda funny
Her hair is kinda wild and free
Oh, but love grows where my Rosemary goes
And nobody knows like me

She talks kinda lazy
And people say she she's crazy
And her life's a mystery
Oh, but love grows where my Rosemary goes
And nobody knows like me

There's something about her hand holding mine
It's a feeling that's fine
And I just gotta say
She's really got a magical spell
And it's working so well
That I can't get away

I'm a lucky fella
And I've just got to tell her
That I love her endlessly
Because love grows where my Rosemary goes
And nobody knows like me

4. That's Alright With Me

You can tell me no
And that's alright
Help me close
And get the lights
If you wait for me tonight
I won't be long
Baby that's alright with me

Everybody knows
Wishes can't be told
Your talk about leaving town
Is getting kind of old
But here in the neon light
You're taking me away
I don't know where you've been
But I want you to stay

You can get up and leave
That's alright
Ask me please to hold you tight
And if you wait for me tonight
I won't be long
Baby that's alright with me

I watch your shadow rise
And walk across the room

You talk about leaving town
Well why ain't you long gone
Love and neon light
Should never be alone
I wonder where you've been
Not where you're going

You can tell me no
And that's alright
Help me close
And get the lights
So you say your place is nice
I won't be long
Baby that's alright
You can get up and leave
That's alright
Ask me please to hold you tight
And if you wait for me tonight
I won't be long
Baby that's alright with me

5. Radio for Heartache

She's a radio for heartache
Wandering along the river
Anyone who's on her wavelength
She will ask you what's the matter

He was so alone
He wouldn't have recognized his face
She sat down and gazed around
"Isn't this a lovely place?"

It looked cold out on the water
He kind of turned and nodded to her
That sound that you let me down makes
She's a radio for heartache

He'd been so wrong already
He couldn't even guess
She asked him if he had seen
Her favorite pair of swans pass yet

She's a radio for heartache
Wandering along the river
Anyone who's on her wavelength
She will ask you what's the matter

6. Back To My Machine

I went back to my machine
One moonless night
Down a dark strange street
So familiar in the day
I went back to my machine
Said I forgot a couple things
And she was listening
And came to life again
And I looked into her screen
And she looked back at me

If my heart was made of iron
If blood ran through your steel
We could be together again
O how I wish you were real

I went back to my machine
She was a beautiful thing
On a warm summer night
Walking in the moonlight
I went back to my machine
She remembers me
Said she's sorry what she did
Then they turned her into this
And I looked into her screen
And she looked back at me

If my heart was made of iron
If blood ran through your steel
We could be together again
O how I wish you were real

If your veins weren't wires
If blood ran through you still
We could be together again
O how I wish you were real

7. Arriving On a Train

Sunrise on the tower clock
Back streets still wet with rain
Rowhouses slow then stop
I am arriving on a train

You were always telling me
Not to be so sure
And if I cannot get away
Try to get through
Suddenly now I wake up
Alone on an empty train
I could never get it right
Until I gave up trying
Toward the end, settled in
Happy for a while
Now it all seems like a memory at one time

Blue light through cloudy glass
Empty platform like a stage
And I wonder where I'm at
I am arriving on a train

And as I rise from my seat I find
The worried voices fade away
Then at the steps I realize
I am arriving on a train

8. Save Yourself City Girl

Save yourself, city girl
I can't do much from way out here
Cut your collar and sell your pearls
Save yourself, city girl

You got invited
Then decided to begin
Nobody noticed when you couldn't find your seat again

A wind-up toy without a chain
You don't respond to your own name
Lost your coat
Lost your curl
Save yourself, city girl

He'll start to notice
That you can't be satisfied
You better get your ticket now
Before he cuts that card

At the table where you go
You act like you've got your own show
Tell me something I don't know

Save yourself, city girl

Save yourself, city girl
I can't do much from way out here
Cut your collar and sell your pearls
Save yourself, city girl

9. Anyone

Anyone who's ever tried
Knows the way that I feel tonight
And anyone who's ever been let down
Knows what I'm talking about
Did you think I didn't care
Did you think that I'd not be there
You fall to pieces and you don't get none
I had a reason I'd give you one
Anyone
Had to do what you have done
Understands what I'm saying
Time will tell
Time won't lie so listen well
And try not to forget
Anyone who's never right
Knows where to find me tonight
And anybody already done
Knows better than anyone
Anyone
Had to do what you have done
Understands what I'm saying
Time will tell
Time won't lie so listen well
And try not to forget
Anyone who's ever tried
Knows the way that I feel tonight
And anybody already done
Knows better than anyone

10. In My Dream

Hey baby, don't worry
Hey baby, don't worry
Open my eyes
Another day
I see your face and your eyes
In my dream

In my cold and quiet dream
You could not go outside
In my dream
They would ask where I had been
They would know that I lied
And so I go
Into my day
Though clouds cross the sky
In my dream
In my gray and hollow dream
I went out, you would hide
In my dream
You were never to be seen
Then they appeared outside
Hey baby, don't worry
Hey baby, don't worry
In my dream
In my gray and hollow dream
I went out, you would hide
In my dream
You were never to be seen
Then they appeared outside
Hey baby, don't worry
Hey baby, don't worry
